Buttons and Icons

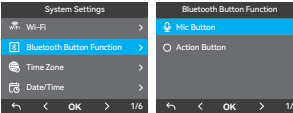

Default Settings

Buttons	Behavior
	Press once to lock the file being recorded
	Press once to disable / enable audio recording
	Press once to turn on / off Wi-Fi

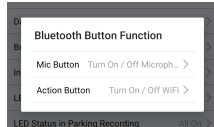

Customized Settings

- The Bluetooth remote control features two customized buttons, Mic Button [] and Action Button []. You can personalize the button controls based on your preferences in the dashcam or the VIOFO App settings.

➤ Dashcam Settings

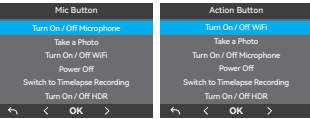

➤ App Settings

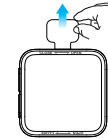

- The two buttons can be customized to control certain functions of the dashcam with one press, including:

Turn On / Off Microphone
 Take a Photo
 Turn On / Off WiFi
 Power Off
 Switch to Timelapse Recording
 Turn On / Off HDR

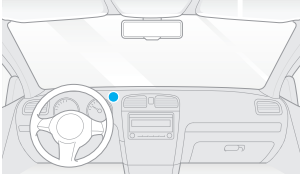

Installation

1. Remove the insulation film.

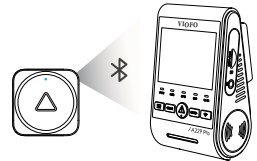

2. Fix the Bluetooth remote control in a convenient location on your dashboard.

With one simple press on the Bluetooth remote control, you can safely lock important videos, turn on/off Wi-Fi, enable/disable HDR, and perform additional functions, all without diverting your attention from the road.

Pairing with Dash Camera

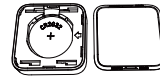

- Power on the camera.
- Press and hold the video lock button on remote control for 3 seconds to pair with camera.
- If get paired successfully, the LED indicator of the remote turns blue.

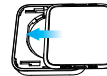

Replacing the Battery

1. Open the battery cover by sliding it to the right.

2. Place the new battery with the "+" symbol facing upward.

3. Lock the battery cover by sliding it to the left.
